

The American Galvanizers Association (AGA) is a non-profit trade association dedicated to serving the needs of after-fabrication galvanizers, fabricators, architects, specifiers, and engineers. The AGA provides technical support on today's innovative applications and state-of-the-art technological developments in hot-dip galvanizing for corrosion control.

The AGA serves as the unified voice and representative of the North American hot-dip galvanized steel industry. Through technical research, innovative studies, education, and promotion, the AGA strives to preserve the current market position and promote the additional use of galvanized steel in existing and emerging markets.

AGA Resources

Created to educate and train in the specification and use of hot-dip galvanized steel, the AGA maintains a number of resources for the specifying community, including:

Specifier Education

- [Galvanizeit! Seminar Series](#) – free continuing education program registered with AIA/RCEP/GBCI
- [Technical Publications](#) – more than 50 publications on hot-dip galvanized steel covering topics such as design, specification, cost, performance, sustainability, and more
- [Galvanizing Insights](#) – quarterly eNewsletter includes galvanizing innovations, projects, and common questions
- [Inspection Course](#) – teaches proper inspection techniques for galvanized steel
- [Website](#) – galvanizeit.org contains a plethora of technical information and resources on demand including a [life-cycle cost calculator](#)
- [Social Media](#) – interact with the AGA on [Facebook](#), [Twitter](#), [LinkedIn](#), [Google+](#), [YouTube](#) and [Instagram](#)
- [Galvanized Steel Studies](#) – AGA video series featuring galvanized projects and the people who chose to galvanize them
- [AGA Project Gallery](#) – hot-dip galvanized case studies on various project applications

Technical Support

- [Free Staff Support](#) – AGA technical staff is available to assist with questions on design, specification, performance, etc.
- [KnowledgeBase](#) – interactive, virtual Dr. Galv containing quick answers to common questions, including additional resources
- [Technical Library](#) – the AGA maintains a library of more than 5,000 industry articles
- [Galvanizer Locator](#) – contact and capacity information for all AGA members throughout North America
- [Inspection App](#) – comprehensive app to aid in the inspection of hot-dip galvanized steel
- [Galvanizing Cost Calculator](#) – uses specific imputed project data to develop and compare the initial and total cost of hot-dip galvanizing
- [Touch-Up & Repair Series](#) - AGA video series detailing proper touch-up and repair of galvanized steel

Protecting Steel for a Sustainable Future
