

# Excellence in Hot-Dip Galvanizing Awards Entry Consent Form

Whether an artful sculpture glinting under the sun or a sturdy bridge arcing over the waves of a rushing river, galvanized structures can be seen standing strong and corrosion-free across the continent. The *Excellence in Hot-Dip Galvanizing Awards* recognizes the special skill and efforts of galvanizers, fabricators, architects, engineers, contractors, and all other parties as they complete projects that will remain durable, beautiful, and maintenance-free for generations to come.

Starting in 1994, the American Galvanizers Association (AGA) has presented the Excellence Awards annually in recognition of projects that utilize after-fabrication hot-dip galvanized steel in an ideal, creative, monumental, or otherwise impressive fashion. As galvanizing is used in myriad applications, the awards program honors projects in various categories galvanized by an AGA member in the last calendar year.

For more information about or to submit an award to the *Excellence in Hot-Dip Galvanizing Awards*, visit [www.galvanizeit.org/project-gallery](http://www.galvanizeit.org/project-gallery)

## Terms and Conditions

- I understand and consent all information and images submitted to the AGA for award consideration become the property of the AGA to use in marketing, promotional, and/or informational material to promote the hot-dip galvanizing industry.
- All affiliated parties involved in the project have been informed and agree to the stated terms and conditions.
- Copyright clearance for all photographs and information has been obtained, and if special copyright is required for use, I will inform AGA upon submission.

I consent to the terms and conditions stated above.
