

TECHFORUM

2025

OCTOBER 7 - 9

ADOLPHUS HOTEL

TEXAS

TechForum, the American Galvanizers Association's (AGA) annual technical conference, open to members and non-members, provides the opportunity to network and discuss current technological advancements. TechForum attendees are North American hot-dip galvanizing industry's plant/operations personnel, plant owners/managers, and other industry experts. For exhibitors and those looking to network within the galvanizing industry, the three-day conference includes a MarketPlace exhibit hall where you can showcase your company throughout the event, as well as other sponsorship opportunities.
